was found to be frozen over and

Galveston, Texas, February 13.—Very caused the bottles to break, leaving the few reports have been received from the country yet telling of the damage less frozen canned goods, which will prove done by the hard freeze of yesterday and a total loss unless used immediately last night, but there is no doubt that men are sitting about and for once everything was lost. Dr. Cline, to abandon the records they have witnessed. It is the man of today who will carry to posterity the cold weather record. nearly everything was lost. Dr. Cline, States weather bureau, estimates the loss in the coast region at more than \$1,000,-000 as a direct result of the unprecedented cold weather. This includes the holdings of all the small farmers between Corpus This morning the Brazos river at this Christi on the west and Orange on the

A short time ago, when the temperature went to 20 on the coast the people over lost 19 per cent of their crops then in the ground. That cold spell lasted only one night. Dr. Cline teels sure that the farm-ers were unable to provide against the excessive weather of the past forty-eight hours, and on that assurance he bases his estimate of the loss. From the re-ports previously received at the weather bureau office, it is known that the crop of early vegetables was unusually large. The first planting is now entirely de-stroyed by this freeze.

There was more ice in Galveston this

morning then was ever known before. The Remperature did not go quite as low as it did on Sunday morning, when it dropped to 7.5 degrees, but there was much less wind blowing, and consequently a better chance for ice to form. The bay was frozen over to a greater extent than the shipping people can ever remember before. A tug belonging to the Direct Navigation company had hard work getting elong-it could make no progress at all except to back off and then go against the fee with sufficient force to shove its way through a little at a time. Hundreds of fish were seen benumbed from the cold, and many were frozen to death. On the west the bay was entirely frozen over It must have been of considerable thickness, too, for railroad men coming into town this morning say they tried to break the fee by throwing lumps of coal on it, but were unable to do so.

The ice extended entirely across the channel opposite the quarantine station, and two English steamers had to plow their way through it in going out.

their way through it in going out.

Down at the beach the sight was a besutiful one. The breakers froze as they rolled onto the shore, and the ice formations were not only attractive, but unusual in formation and character.

An unknown white man about 25 years old was found at Eighteenth and Church streets about 1 o'clock this morning almost frozen to death. He was lying across the sidewalk entirely numb from the cold. the sidewalk entirely numb from the cold. His presence here was reported to the police station and the patrol wagon was sent to bring him in. At the station the attendants were unable to revive the fellow and he was sent to the Scatty hospital whose he seem recovered and went

s way. Water and heating pipes were badly interfered with. All of the public schools dismissed for today on account of heing unable to keep up steam and to make the rooms comfortable.

The *emperature was only 6 degrees

pital, where he seen recovered and went

and physicians are of the impression that the yellow fever question has been settled for the coming year. The cold will ef-fectually stamp out all disease germs. The damage to the Florida crange crop is no doubt great, but no estimates have been received here. The local truit deal-ers lost pretty heavily, as all their stock on hand was frozen hard. Warmer weather is promised for to-

NEARLY OVERCOME.

Young Man on a Hunting Trip in a Bad Way. Orange, Texas, February 13.—The in-

tensely cold weather has continued today. This morning Adams bayou was frozen over to a depth of half to one inch, something never known here before

Joe Weaver, a young man about 20 years old, with some comparions went to Sabine lake Friday night in a sail boat on a hunting expedition. The blizzard Saturday night prevented their return and a relief party went after them yesterday in a wagon. Returning home, while crossing the practice young Weaver became almost the prairie, young Weaver became almost frozen and lost the use of his limbs entention, but it was some time before the use of his limbs was restored. It is not yet known how hadly frosted he is.

None of the mills have turned a wheel today on account of the cold, as many small pipes were frozen and burst, and owing to the mills not rounning there is almost a solusness, from which he has not yet restourced. So cattle. Warrenton, Payette County. — The temperature was 4 degrees below zero; inches.

Today has been milder, but the thermometer has continued to stand below freezing.

Today has been milder, but the thermometer has continued to stand below freezing.

Fatally Injured by the Cold.

Ennis, Texas, February 13.—John Rentered in the county of the cold of the cold, as many small pipes were frozen and burst, and owing to the mills not rounning there is almost a solusness, from which he has not yet resolused to solution to stand the temperature was 4 degrees below zero; eattle are in good condition to stand the weather. Farming operations are put off indefinitely.

Franklin, Robertson County.—Four degrees below zero; everything is frozen; ice six inches thick.

GRAIN AND HAY.

Carload lots, f. o. b. cars from millers; dealers charge from store bellec more per 100 los on bran. 233c per bushel on oats and corn, and 100 lbs lost 100 lbs oat hay.

BRAN-70c1 corn brau 674c per 100 lbs.

CHOPPED CORN-800520 per 100 lbs.

CHRN-No. 2 mcked, die per bushel.

OATS-Texas 31673c per bu.

WHEAT-SHORTS-8bc per 100 lbs.

The blizzard has completely clogged the sleeds of commerce. The reports in other colamps of the paper show temperatures, and the senther conditions have chilled business there is absolutely nothing doing. Interior thereign were evidently hugging stores and firepiness, for they sent in no orders, and in town peddiers did not turn out.

Adveces from units stated that meal was up I cont. cont. Caudies are he higher. Sugar is slightly weaker, though prices are belonged. We trust to be favored with orders The Rice Market.

MUNYON'S GUARANTEE.

Strong Assertions as to Just What the Remedics Will Do.

31,733

Memyon guarantees that his Rhetmatism Core will cure nearly all cases of rhetmatism and cases of rhetmatism in a few bourse that his Dyspesia Core will cure ladgestian and all stomach troubles; that his Kidney Core will cure 90 per cent, of all cases of hidney trouble; that his Code at a case of hidney trouble; that his Code catarrh no matter how long standing; that his Headache Cure will cure eatherh no matter how long standing; that his Headache Cure will cure any kind of headache in a few rainnites; that his Code Cure will cure any kind of headache in a few rainnites; that his Code Cure will cure any kind of headache in a few rainnites; that his Code Cure will cure any kind of headache in a few rainnites; that his Code Cure will cure any kind of headache in a few rainnites; that his Code Cure will cure any kind of headache in a few rainnites; that his Code Cure will cure any kind of headache in a few rainnites; that his Code Cure will cure a few rainnites; that his Code Cure will cure any kind of headache in a few rainnites; that his Code Cure will cure a few rainnites; that his Code Cure will cure a few rainnites; that his Code Cure will cure a few rainnites; that his Code Cure will cure a few rainnites; that his Code Cure will cure a few rainnites; that his Code Cure will cure a few rainnites; that his Code Cure will cure a few rainnites; that his Code Cure will cure a few rainnites; that his Code Cure will cure a few rainnites; that his Code Cure will cure a few rainnites; that his Code Cure will cure a few rainnites; that his Code Cure will cure a few rainnites; that his Code Cure will cure a few rainnites; that his Code Cure will cure a few rainnites; that his Code Cure will cure a few rainnites; that his Code Cure will cure a few rainnites; that his Code Cure will cure a few rainnites; that his Code Cure will cure a few rainnites; that his Code Cure will cure a few rainnites; that his cure a few rainnites; that his cure a few rainnites; that his Code Cure will cure a few rainnites; that his cure a few

gives promise of further enlargement of business. Foreign once more looms up it prominence and commands the larger share of patronage; this due to the higher prices that are being demanded for similar grades in domestic. Advices from the South note steady movement and unmistakable signs of shortened supply. Receipts at all milling centers are light; many of the milis have suspended operations; assortments are narrowing and the "cream" or best selections of every grade 1-1 to 3-8c advance. It might be remarked in regard to the home crop that the end thereof is in sight. Some bave entertained the idea that because of there being considerable amount of crop in Southwest Louisiana there was perforce, a liberal forward supply. Recent investigation, however, discloses that the amount of sound rice is limited; less than at equal date last year. Of that which has not found its way to market some fair per cent is safely housed, but the bulk of that in the field is bad color, stackeburnt, heating and sprouting. In the higher grades Carolina planters practically have a monopoly, and as a result are exacting full values. Cables and correspondence abroad note large business doing at higher prices. The improvement is general, or in other words, all grades have shared in the advance to about equal degree. The leaders at the moment are Patna and Siam, on account of their extreme scarcity, both in actual and prospective supply.

Talmage, New Orleans, telegraphs Louis-

iana crop movement to date: Receipts, rough, 627,840 sacks; last year (inclusive of amount carried over), 457,500 sacks. Sales, cleaned (estimated), 150,345 barrels; last year 77,190 barrels. Under light receipts assortments are narrowing, Fair to good grades advanced full 1-4c. Whole market strong, with upward tendency, Talmage, Charleston, telegraphs Carolina crop movement to date: Receipts, cleaned, 20,290 barrels. Sales, 26,075 barrels. Market scarcely so active. Prices firm, as the Carolinas control practically all of the good to prime grades in domestic, and supply is limited.
